**Subject: Announcement of first sale of RSPO certified Palm Oil for export**

**To: The President  
The Stock Exchange of Thailand**

Univanich Palm Oil PCL today announced Thailand's first sale of RSPO certified Palm Oil for export.

The consignment of 1,000 tonnes of Crude Palm Oil (CPO) is the first shipment of certified sustainable palm oil under the strict sustainability standards set by the Round Table for Sustainable Palm Oil (RSPO) and represents another milestone for the Thai Palm Oil industry.

The oil will be shipped to Europe from the company's Krabi port of Laemphong in mid-July.

This international recognition of the Univanich company's ability to meet the stringent RSPO sustainability criteria, and the premium price this certified oil can achieve in world markets, augurs well for Thailand being recognized as a future source of premium sustainably produced palm oil.

The Univanich Board said the sale was particularly significant for the 160 members of the Univanich PlaiPrayaCommunity Enterprise Group which has recently been recognized as one of the world's first groups of independent small farmers to achieve RSPO certification of their palm oil production. The sale would encourage other small farmers who supply fruit to the company to also seek to achieve RSPO certification standards.

Please be informed accordingly.

Yours faithfully,

John Clendon  
Managing Director
